WEB DEVELOPER

Proficient beginner MERN stack developer with strong HTML, CSS and JavaScript skills. I am also familiar with SCSS, Bootstrap, Firebase, MongoDB and JavaScript libraries like GSAP, Locomotive.js as well. Currently working with React.js for developing dynamic UIs and passionate to expand expertise in backend development, I am eager to secure a software development internship to apply my programming expertise, work on challenging projects, and learn from experienced developers.

STRENGTHS AND EXPERTISE

Object Oriented Programming
React / Redux / Redux Toolkit
Node / Express / REST APIs
Time Management

Data Structures
JavaScript / Python
HTML / CSS / SCSS
Collaboration

Database Management
MongoDB / SQL
Firebase / Tailwind CSS
Problem Solving

EXPERIENCE

Student Intern CodeAlpha

Feb 2024

Completed a 4 week virtual web development internship at CodeAlpha.

Accomplishments:

- Implemented responsive design principles for optimal user experience.
- Utilized HTML, CSS, JavaScript and React.js for project development.
- Applied version control using Git and utilized Github for collaborative development.

PROJECTS

Full Stack Video Sharing Application

Developed a complete MERN stack video sharing app inspired from youtube.

Tech Stack: React, MongoDB, Styled Components, REST API, Express, JWT, Redux State Management

Full Stack Social Media Application

Developed a complete MERN social media application.

Tech Stack: React, MongoDB, REST API, Express, Context API, React Router DOM

Portfolio Site

Developed a personal portfolio site using concepts learned in web development.

Tech Stack: HTML, CSS, JavaScript, SCSS, Browser APIs, CSS Animations, GSAP Animations

EDUCATION

Bahria University Karachi Campus
Bachelor of Science in Computer Science

March 2021 - 2025

CGPA: 3.85 (sem-7)
